

[00:00:05] Asri: Hey Manohar, let's do our review session. We've got a few things to cover: last week's sales, the stock situation, the supplier delay, customer reviews, and marketing. Should take us about 15 minutes.

[00:00:17] Manohar: Oh, that sounds good, Asri. So where do you want to start?

[00:00:23] Asri: Let's start with sales. Last week was interesting. The running shoes did better than I expected, actually.

[00:00:33] Manohar: Oh yeah, I saw the numbers. They almost sold out.

[00:00:39] Asri: Yeah, right. The winter jackets, on the other hand, were slow. We barely moved any.

[00:00:43] Manohar: Oh, that's a bit worrying. The season's almost over too.

[00:00:49] Asri: Exactly. And the old phone model. It's been sitting there for weeks now. Barely anyone's buying it.

[00:00:59] Manohar: Honestly, I think we should stop selling the old phone model. It's taking up shelf space and the margins are absolutely terrible. What do you think?

[00:01:11] Asri: Let's drop it. We'll clear out whatever's left and not reorder any more.

[00:01:21] Manohar: Works for me. One less thing to manage.

[00:01:27] Asri: Yeah. Which also brings us to stock. The running shoes are selling fast, which is great, but it means we're going to run low soon.

[00:01:39] Manohar: Yeah, that's a good point. I don't want us to run out right when demand is high. So I'll reorder the running shoes stock by Thursday.

[00:01:53] Asri: Yeah, perfect. How many are you thinking this time?

[00:01:59] Manohar: Probably double last month's order. Demand is clearly up, and I'd rather have a bit extra than miss sales.

[00:02:17] Asri: Just keep an eye on the storage space.

[00:02:21] Manohar: Yeah, we've got room. What about the jackets?

[00:02:25] Asri: For the slow jackets, I'll launch a discount campaign on the winter jackets by Friday to clear them out before the season ends.

[00:02:39] Manohar: I think a discount should move them. What kind of discount were you thinking?

[00:02:47] Asri: Maybe 20 or 30 percent. I'll work out the exact number when I set it up.

[00:02:55] Manohar: Sounds reasonable. Anything else on stock?

[00:03:01] Asri: Yeah, one more thing. Our supplier list is really outdated. A lot of the contacts are old, and some of them don't even work there anymore.

[00:03:13] Manohar: Oh yeah, I noticed that last time when I tried to reach one of them. Can Ravi update the supplier list?

[00:03:23] Asri: Which Ravi? Ravi from sales, or Ravi from the warehouse? We've got two Ravis now, remember?

[00:03:33] Manohar: Oh yeah, good question. Let's confirm later who actually takes that one.

[00:03:41] Asri: Yeah, okay, we'll sort that out. Now the bigger issue, the delivery delay.

[00:03:47] Manohar: That's true. The supplier's been late on the shoe shipment.

[00:03:55] Asri: Right. And the customers are starting to wait. I've seen a couple of messages asking where their orders are.

[00:04:05] Manohar: Oh, same. We've had a few complaints come through already. It's not a good look.

[00:04:11] Asri: No, it isn't. Someone needs to call the supplier about the delayed delivery today. We can't just keep waiting on them.

[00:04:21] Manohar: Definitely. That's high priority. The longer we wait, the more customers we annoy.

[00:04:31] Asri: Yeah. Let's make sure that happens before end of day.

[00:04:35] Manohar: So while we're on customers, did you see the reviews from last week?

[00:04:41] Asri: Yeah, I did. They were mostly about the delay, and one about a damaged jacket.

[00:04:49] Manohar: Damaged? Those need a response. We can't leave them sitting there.

[00:04:57] Asri: Yeah, you're right. I'll reply to the negative customer reviews by tomorrow and try to smooth things over.

[00:05:05] Manohar: Oh, good. A quick apology and a small discount code usually helps a lot.

[00:05:11] Asri: I'll do that. And on the damaged jacket, do we know if more of them are affected?

[00:05:19] Manohar: I'm not sure. I'll check the jacket stock for any damage before we run the discount, so we're not selling bad ones.

[00:05:29] Asri: Yeah, good. Better than it adding to the delay.

[00:05:35] Manohar: Yeah. Okay, what else?

[00:05:37] Asri: A small idea.

[00:05:39] Manohar: Yeah, tell me.

[00:05:41] Asri: We should think about adding a new product category sometime, like maybe bags or accessories.

[00:05:51] Manohar: Okay, so maybe someday. It could be interesting, but let's not take it on right now. We've got enough on our plate already. What do you think?

[00:06:03] Asri: Yeah, just keeping it in the back of our minds.

[00:06:07] Manohar: Sure, sure. So now what about marketing?

[00:06:11] Asri: Yeah, I was wondering, should we run Instagram ads this month to push sales a bit?

[00:06:19] Manohar: Hmm, actually, no. Let's hold off on ads this month. The budget's tight after the extra stock order.

[00:06:32] Asri: Okay, that's fine. No ads for now then. We'll review it next month when things settle.

[00:06:42] Manohar: Sounds good. Maybe we focus on free stuff for now, organic marketing. What do you say?

[00:06:52] Asri: Yeah, right. It's basically free, so we can lean on that instead. I could do that.

[00:07:02] Manohar: Okay. I think that covers everything.

[00:07:06] Asri: Okay. Better to do a quick recap so we're on the same page. You'll reorder the running shoes by Thursday, I'll run the jacket discount by Friday, I'll reply to the negative reviews by tomorrow, you'll check the jacket stock for damage, we'll confirm which Ravi updates the supplier list, and someone calls the supplier about the delay today.

[00:07:32] Manohar: Hmm. So that's everything. And we agreed to drop the old phone model, and bags is a someday idea.

[00:07:46] Asri: Right. Yeah, perfect, we got it. Thanks.

[00:07:52] Manohar: Okay, thanks. We'll talk next time.

[00:07:58] Asri: Let's do that. Thank you. Bye.
